Re: Shape Your Destiny Seminar

Dear Darren,

I would like to take this opportunity to thank you for literally helping me *Shape my Destiny*. It's not often that promises like that are met, let alone exceeded!

The two day weekend seminar was so educational, empowering, fun and uplifting. I loved that we were exposed to games, music and dance as a way of learning and creating change. The greatest gift was being guided to help me devise a plan of action that I was able to immediately apply!

Before attending I lacked direction and passion. I have since found myself feeling a lot more optimistic about my future, more confident in myself and excited about the possibilities that now await me.

I believe that people from all walks of life should embrace this amazing opportunity which is sure to encourage our community to grow, learn and experience expansion in the same way I have both personally and professionally.

Thank you for this precious gift.

Warm regards,

Erykah Sklivas
