To whom it may concern

Mentone Grammar has been associated with Success Integrated for a period of eight years. During this time, Darren Pereira has presented a range of programs to our students, all of which have been highly successful and stimulating.

Darren's style is engaging and his content is up to date. He presents in a way which engages the generation appropriately. He is always a high energy presenter and, unlike some in his industry, this energy adds to the content rather than detracting from it. Darren is always willing to support students online after his sessions, which is pleasing given the nature of his presentations. His follow up adds value considerably.

Be it time management, study skills, leadership or general personal development we have found Darren to be a person who is able to share relevant information in a way which embeds knowledge.

I am happy to act as a referee on his behalf.

Yours faithfully
