

Here at CRC Melton we have used Success Integrated for six years now as a means of developing motivation in our students and providing them with strategies to further enhance their learning. We began with our senior classes and more recently engaged Darren Pereira to work with our Year 7 students and parents. He has also worked with our student leaders to develop their leadership skills. Darren has also worked with our Year 9 and 10 students therefore creating a whole school approach and message. This is helping us to build a 3-way partnership between the student, teacher and parent. Feedback from the students and parents have been overwhelmingly positive and appreciative of the opportunity to participate in the knowledgeable, entertaining and engaging workshops.

Darren and his other presenters uses videos, music and humor to engage the students and parents in a very effective and entertaining manner. They leave the workshops with tips, advice and strategies to assist them in their learning. The workbooks provided during the workshops provide them with an ongoing resource. Students and parents have gone away with a clearer picture on what they can do. I recommend Darren and Success Integrated to schools grappling with how to motivate their students, how to engage parents in their child's education and how to give students skills to be good learners. I look forward to continue working with Success Integrated
