

December 2007

Hi Darren

I write to you as a follow up to the "Shape Your Destiny" Seminar that you delivered to our Year 11s as part of their End of Year Programme. We have been running this seminar in this programme for the past four years and find that our students gain a lot from your presentation. They relate well to your humour, energy and the style of presentation and this ensures that they get the most out of the seminar. The course content is relevant to their situation and thus keeps them engaged and wanting to know more.

The use of the DJ is another great way to capture the student's attention. The use of a DJ enables you to get the message across in a different manner and one that relates to them as they have a very strong interest in current music. The energy from the use of a DJ helps them get more involved in the seminar.

The enthusiasm and motivation you provide to students is the reason they get so inspired. The investment we make in your presentations is very worthwhile and has benefited our students in a number of ways. I am sure that the relationship between CGS and Success Integrated will continue on into the future.

Regards,
