**TO WHOM IT MAY CONCERN**

**RE: Darren Pereira**

Darren Pereira from Success Integrated delivers highly energising and engaging messages to Year 10, 11 & 12 students. He has a motivational and entertaining presentation style and the boys enjoy the hype that goes along with the presentations. His message encourages the boys to get organised with study, set high academic goals and believe in themselves.

Darren definitely met our expectations. He is friendly, focused, exceptionally knowledgeable and relaxed. He inspired and motivated the students and his use of music and a DJ made the sessions fun for the age group involved. The learning strategies he uses includes students chanting back key messages, he provided a workbook and his practical strategies were great.

His passion for the subject matter is infectious and he has deep professional expertise, and it shows.

In summary, it is my pleasure to give Darren a positive recommendation as a speaker and the school feels it was a worthwhile investment having him speak to our students. He delivered valuable information in an inspiring and entertaining manner.

Kind regards

Claudine Nathan  
Assistant Principal – Student Services
