Subject: Highvale Feedback

Dear Darren

Sorry for the delay - I have surveyed the Year 12 students and have gained very positive feedback in relation to Darren's 'Achieving Your Best' presentation at our Year 12 Conference.

I have the actual survey sheets at school, but, from memory, about 85% of students indicated Darren was on their wavelength, presented in a dynamic manner, kept their attention, involved them, motivated them, helped them to set goals and achieve their best.

They also enjoyed the DJ, the informal yet informative manner in which Darren imparted his knowledge and the fact that he was young!!!

The students found both Darren's session at the Year 12 Conference both beneficial and fun and are eagerly awaiting his return.

Hope this assists you
