## **TO WHOM IT MAY CONCERN**

Darren Pereira has been involved with our college for over 10 years. During this time he has delivered a range of programs such as Shape Your Destiny, Achieve Your B.E.S.T. and VCE Success Strategies to a range of different year levels.

The feedback from our students has always been outstanding with most students commenting on Darren being the best guest speaker they've ever heard.

Darren's presentations always consist of very relevant information and strategies which students find easy to implement. Students have seen me well after Darren has gone and reported an improvement in their study habits and overall performance. This has improved the confidence in our students and their desire to strive for their very best.

Darren is a highly motivational speaker and is able to keep students engaged for significant periods of time. The energy he brings to the room is always positive and all students instantly participate with enthusiasm and excitement.

I would strongly recommend Darren's presentations be an integral part of all college programs where student success is highly valued.

Yours faithfully

**Mrs Helen Gogos**  
Head of Senior School
