'Shape Your Destiny' Seminar

Darren Pereira was first invited to conduct the 'Shape Your Destiny' seminar with our Year 12 students at Ivanhoe Grammar School in February 2011.

As a young, dynamic presenter Darren is able to effectively engage the interest of the students using his unique style of delivery through which he generates motivation, energy and enthusiasm. In particular, Darren's passion to empower students and his use of the DJ with music makes for a fun and entertaining seminar to which students relate well. Students were able to gain clarity and direction with their life goals in addition to helpful insight into their career paths, using Darren's practical learning strategies.

The students' feedback was overwhelmingly positive as their comments reflected that they felt inspired with increased confidence and determination to achieve their goals.

I highly recommend the 'Shape Your Destiny' seminar as a worthwhile investment for any school.
