Subject: Feedback from Avondale

Hey Darren

I felt that the session on the whole was great; new and exciting for them to be motivated and pushed in a very different way.

It was a huge group (450 students) so to maintain the focus was superb. I feel it would be ideal to halve the group, could even do females or males together. However, you did a remarkable job with them all.

Great use of DJ; I think that was a hit! Keeping the language user friendly when relating to students was excellent. I definitely feel it was worth it.

Your presentation skills were great and you presented strong messages in a low key and cool manner which the students liked. The learning strategies, because they were new, were well received, and gave it a physical aspect which broke up the discussions - this recharged them consistently.

On the whole, a wonderful opportunity for them which most adults would pay a huge amount of money to do, so thanks.

Talk again

Karen Morgan

Year 13 Dean

Avondale College
