To whom it may concern,

Re: Darren Pereira of Success Integrated

Kew High School has engaged Darren Pereira to talk to our year 10 students on two occasions now. The first occasion was as part of a year 10 study skills day in October, 2006. This year, Darren again presented to our year 10 students, delivering his *Shape Your Destiny* seminar. Both of these presentations were highly successful and elicited very positive feedback from students.

Darren has a unique ability to engage and motivate secondary students. He captures young peoples' imagination and attention with his entertaining delivery and thought provoking and relevant material.

Darren's *Shape Your Destiny* seminar was a very useful precursor to the year 10 careers expo and work experience program. It encouraged students to focus on their innate talents as a means of considering future directions in their careers and life.

We highly recommend Darren as a motivational speaker for upper secondary students.

Yours sincerely,

Laura Walsh
