To Whom It May Concern: Re Darren Pereira and Success Integrated.

Darren has recently completed two of his seminars at Lyndhurst Secondary College. Initially, he took our Year 12's through "Shape Your Destiny", and then our Year 11's completed "Achieve Your Best" with him.

I was extremely pleased to meet up with Darren, as I was looking for an external group that would complete goal setting and motivational activities with our students without it revolving around "I" stories. "I did this, I do that" only has an impact for as long as the speaker is present, in my opinion. I found what I was looking for in Success Integrated – cutting edge, student centered, entertaining but relevant and applicable goal setting for all students, not just those academically minded. Adding current music to the mix is simply inspiring – we are all aware of how dependent young adults are on their music, and how powerful the message carried with it often is. The seminars both had follow up procedures inherent in their structure, which was another vital ingredient that I had been seeking.

The impact on the students of the day was immense, with incredibly high levels of participation and engagement. These sessions both achieved what they set out to do; each student left the seminars with written goals and a clear sense of purpose and their direction. We will now carry on the follow up work to ensure the groundwork put in will not be wasted.

I would welcome any inquiries regarding these seminars at either the address or email above.

Thanking you for your time,
