Dear Darren,

I would like to formally thank you for coming to our college and motivating our Year 12 students and challenging them to set realistic goals for the future. All students responded enthusiastically to your presentation style which included humour, passion and reality. You created a very energetic environment, which assisted in capturing our student's attention right from the start.

The presentation itself was extremely well prepared and had the students engaging physically, which is essential for boys. The content was also empowering for our boys because it challenged them to be honest in their failings and successes. The DJ who assisted in the presentation was also a very motivating factor. It kept the boys engaged and helped them with the visualisation exercises you were taking the students through.

In terms of motivating our students, many boys commented on the fact that it helped them begin to see more clearly what they had to do to achieve their goals. The seminar was well worth the cost because it was engaging, the presenter was passionate, the presentation was accurately directed at the student's level and was thoroughly organised.

I would highly recommend this seminar for senior students at Year 10, 11 or 12 and would like to take this opportunity to thank you again for your dedicated and passionate approach to motivating our students.

Yours sincerely

Michael Lafferty
