# SALESIAN COLLEGE

A CATHOLIC SECONDARY SCHOOL FOR BOYS

14<sup>th</sup> February, 2007

To whom it may concern,

Darren Pereira of Success Integrated delivered a high energy, motivational seminar to 106, Year 12 students at Salesian College Chadstone. In the two hour seminar, Darren was able to take the boys through a wide range of learning strategies using a motivationally charged, charismatic approach. The response of the male students was understandably reluctant in the early stage of the presentation but through persistence and a very professionally prepared seminar, Darren was able to win over his audience, hold them in the palm of his hand and generate a really positive experience for everyone. Darren is a fantastic presenter with an honest passion for the work he does with students. Darren was very ably assisted by his DJ which is a highlight to the overall presentation of the seminar. The inclusion of the music component within the seminar was a real compliment, in terms of generating the hype required to motivate some students and allowing them to connect with his learning strategies. Finally, I must compliment the support material and pre-seminar preparation provided by Darren which helps to ensure a successful seminar experience. I have no hesitation in recommending Darren Pereira to assist other Year 12 students in becoming motivated and prepared for the rigours of their Year 12 studies.

With much appreciation,

*M. Busscher*
