01 July 2009

Dear Darren

Please find enclosed student feedback forms received after the recent *Shape Your Destiny* and *CIE Success Strategies* workshops you presented at ACG Strathallan. Once again, your presentations were entertaining, energetic and inspirational and, once again, the students were rapt throughout and their feedback has been extremely positive. The words "confidence", "self-belief" and "clarity" are repeated in many of the student feedback sheets.

It is gratifying to hear and read these enthusiastic responses of the students. They have left your seminar feeling confident and motivated towards setting and achieving their goals and with positive attitudes about the future. One parent even told the Year 11 Dean that her son had come home a totally different child that day, communicating enthusiastically about what he had gained from the *Shape Your Destiny* seminar.

Thank you for your commitment to our students and engaging them in thinking about their futures. You have provided the students with relevant and practical strategies to help them set goals and to establish a plan of action to achieve those goals. Their responses to the Massive Action Award as a follow-up to the seminar are a good indication that they are already on the way to achieving those goals.

Thanks again, Darren, and I look forward to working with you again next year.

Yours sincerely

Robyn Drummond  
Assistant Principal
