Mr. Darren Pereira.
Success Integrated
Level 2, 700 High Street,
KEW EAST VIC 3029

Dear Darren,

I am writing to express my appreciation for coming to our school to help inspire and motivate our Year 12 students at such a critical time of the year for them.

During the presentation the students were highly engaged and involved in the presentation. You were able to present the material in a manner that had them "hooked" from the start and were clearly very passionate about the messages you conveyed to the students. After the presentation I spoke to a number of students about the presentation and their feedback was more than positive with most explaining that they wished you had presented to them at the beginning of the year as well.

The presentation was full of practical advice and tips for students and I have noticed a change in the way they are approaching their studies now.

Overall the presentation was worth the time and money spent. I certainly know our students are looking forward to further presentations later in the year and in years to come.

Kind Regards,

Christine Lovell
Year 12 Coordinator
